Copy ALL of these formulas and their names onto your note cards. We will be adding to this set in the future ...
You will need to have all of these memorized for a quiz

| Front of Notecard | Back of Notecard |
| :---: | :---: |
| Tangent Identity $\operatorname{Tan} \theta=$ | $\frac{\operatorname{Sin} \theta}{\operatorname{Cos} \theta}$ |
| Cotangent Identity $\operatorname{Cot} \theta=$ | $\frac{\operatorname{Cos} \theta}{\operatorname{Sin} \theta}$ |
| Reciprocal Identity $\operatorname{Csc} \theta=$ | $\frac{1}{\operatorname{Sin} \theta}$ |
| Reciprocal Identity $\operatorname{Sec} \theta=$ | $\frac{1}{\operatorname{Cos} \theta}$ |
| Reciprocal Identity $\operatorname{Cot} \theta=$ | $\frac{1}{\operatorname{Tan} \theta}$ |
| Reciprocal Identity $\operatorname{Sin} \theta=$ | $\frac{1}{\operatorname{Csc} \theta}$ |
| Reciprocal Identity $\operatorname{Cos} \theta=$ | $\frac{1}{\operatorname{Sec} \theta}$ |
| Reciprocal Identity $\operatorname{Tan} \theta=$ | $\frac{1}{\operatorname{Cot} \theta}$ |
| Pythagorean Identity <br> (Involving Sin) | $\operatorname{Sin}^{2} \theta+C \cos ^{2} \theta=1$ |
| Pythagorean Identity <br> (Involving Tan) | $\operatorname{Tan}^{2} \theta+1=\operatorname{Sec}^{2} \theta$ |
| Pythagorean Identity (Involving Cot) | $1+\operatorname{Cot}^{2} \theta=\operatorname{Csc}^{2} \theta$ |

| Front of Notecard | Back of Notecard |
| :---: | :---: |
| Even/Odd Formula $\operatorname{Sin}(-\theta)=$ | $-\operatorname{Sin} \theta$ |
| Even/Odd Formula $\operatorname{Cos}(-\theta)=$ | $\operatorname{Cos} \theta$ |
| Even/Odd Formula $\operatorname{Tan}(-\theta)=$ | -Tan日 |
| Even/Odd Formula $\operatorname{Csc}(-\theta)=$ | -Csce |
| Even/Odd Formula $\operatorname{Sec}(-\theta)=$ | $\operatorname{Sec} \theta$ |
| Even/Odd Formula $\operatorname{Cot}(-\theta)=$ | $-\operatorname{Cot} \theta$ |
| Cofunctions $\operatorname{Sin} \theta=$ | $\operatorname{Cos}\left(\frac{\pi}{2}-\theta\right)$ |
| Cofunctions $\operatorname{Cos} \theta=$ | $\operatorname{Sin}\left(\frac{\pi}{2}-\theta\right)$ |
| Cofunctions $\operatorname{Csc} \theta=$ | $\operatorname{Sec}\left(\frac{\pi}{2}-\theta\right)$ |
| Cofunctions $\operatorname{Sec} \theta=$ | $\operatorname{Csc}\left(\frac{\pi}{2}-\theta\right)$ |
| Cofunctions $\operatorname{Tan} \theta=$ | $\operatorname{Cot}\left(\frac{\pi}{2}-\theta\right)$ |
| Cofunctions $\operatorname{Cot} \theta=$ | $\operatorname{Tan}\left(\frac{\pi}{2}-\theta\right)$ |
